Let Give back through charitable hospitals, free camps, and mentorship.

**Achieving the above Experience by the Power of Compounding 8-4-3-2  
Rule 1 Lakh to 4 Crore Magic**

***Start investing 1lakh in a SIP @ 12% returns***

- First 1.6 Crores takes 8 long years
- Second 1.6 Crores takes only half the time, at 4 years!
- Third 1.6 Crores takes 3 years!
- Fourth 1.6 Crores takes just 2 years!

Unlock the power of compounding and achieve financial milestones faster.

An SIP approach without much fuss,

- Start SIP of ₹1,00,000 per month for 12 years in an index fund

-Assuming 12% CAGR, corpus after 12 years will be 4 Crores

Your mindset determines your financial success. The right mindset will turn ₹1 lakh into ₹4 Crores. Consistency is far superior than Timing the market.  
Running

---

an SIP for next 10 years will outperform most of the strategies that involve timing

the market.

Consistency is the Key.

Investor have to be like a man standing with a spear next to a stream. Most of the

time he is doing nothing. When a fat juicy salmon swims by, the man spears it.

Then he goes back to doing nothing. It may be six months before the next salmon

goes by.

Charlie Munger says most of the time we have to do nothing and stay quite.

Inaction is the key to be a successful investor

Happy Investing days Ahead
